[2] Technical Soundrider: 'MÄRTINI BRÖS'

Backline/mic/DI's etc.:

We need on stage:

1 x Allen&Heath "XOne 92"

3 x mic-stands

3 x keyboard-stands (heavy)

Note: if you direct us directly into a PA-system please make sure you are using 1 pair of EQUAL DI's boxes with –20db Pad

Band brings: 2 vocal-mics (Shure 57Beta), Stage-mixers. Guitars, Pedal effects, Keyboards, Laptops

Line mix:

If directly into PA-system: 2 x 1/3 oct. GRAPHIC EQ'S for main system (i.e.: Klark) – just if not an EQ System is already installed !!

Note: The dynamical FX-mixing of our sound is part of the show!

Monitoring:

Min 2 – max 4 x EQUAL FLOORWEDGES, minimum: 15"/1",

All including amps: Wedges i.e. Nexo PS15, Martin Audio, D&B and Eq's

Riser:

2 or 3 x RISER, each 2m x 2m x 0,3m linked to one big riser

PA:

The Main System must be strong enough, to produce an unlimited average of 108dB SPL taken by the FOH-console if the floor is covered with people. The band needs enough headroom for bass.

For example: D&B C4/B1/C6 or any Line-Arrays (i.e.: Martin, Videos).

The PA-system has to be ready for use at sound check time.

The Band will need a local engineer who knows the system well and is present from the beginning of the sound check until the end of the show.
